SUMMARY

Computer Science student at Reichman University (GPA 92, Dean's List, Data Science 100) who programs in Python and JavaScript/TypeScript and builds with LLM coding tools every day. During an AI-based software engineering internship, built skills for the company's AI agents so they work more accurately and efficiently; the company still uses them. Built and shipped a live AI-based web system with Claude Code. Former Israel Air Force officer who commanded 30 soldiers. Available at least 3 days a week.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, TypeScript, C, SQL (basic)
AI & LLM Tools	Skills for AI agents, Claude Code and other LLM coding tools, GenAI tools, AI-based automation
Web & Backend	Node.js, Next.js, PostgreSQL, Playwright, Chrome DevTools Protocol, REST APIs (Semrush, Apollo)
Tools	Git, GitHub, Linux/Unix
Fundamentals	Data Structures, Algorithms, Data Science, computer architecture (Nand2Tetris)

EXPERIENCE

AI-Based Software Engineer Intern, Litigation Team — Summer 2026 (2 months)

Koladin

- Built skills for the company's AI agents so they work more accurately and efficiently; the company still uses them.
- Automated workflows with Node.js, Next.js, Playwright, Chrome DevTools Protocol, and the Semrush and Apollo APIs.
- Used AI tools for implementation, debugging, testing and automation.
- Worked directly with stakeholders and the team on requirements and feedback.

PROJECTS

Shakdan, PropTech SaaS Platform Live site ↗ GitHub ↗ — Fall 2026 – Present

Project · Technical Lead (CTO)

- Built gng139.online with Claude Code as a study project: an AI-based system that analyzes urban-renewal opportunities in Herzliya, with GIS scanning and feasibility workflows.
- Work with data in a PostgreSQL database.

Nand2Tetris, Full Computer Implementation GitHub ↗ — 2025

Academic project

- Built a full computer from NAND gates in HDL.
- Wrote an Assembler and a VM Translator in Python, and a game in Jack.

EDUCATION

B.Sc. Computer Science, Reichman University — 2024 – Expected March 2028

- GPA 92 · Dean's List · Data Structures 94 · Intro to CS 94 · Data Science 100 · Psychometric 726
- Elected Student Representative, Reichman University Student Union.
- Coursework: Data Structures, Algorithms, C Programming, Java Programming, Linear Algebra, Calculus, Discrete Math, Logic & Set Theory.

LEADERSHIP

Officer & Team Commander, Israel Air Force, Unit 5700 — 2019 – 2024

- Commanded 30 soldiers. Completed the Officers Course (BHD 1, 2022) and received an Excellence Badge (Taal Commander Citation).

Service Year, Jewish Agency, London — 2018 – 2019

- Led youth community programs.

LANGUAGES

Hebrew (native) · English (fluent)
